

North Olympic Discovery Marathon

Kids Marathon!

Saturday, June 4th, 2022

Congratulations _____!

You have run and or walked 13 miles and you are at the half way mark for completing your marathon.

Did you ever think that you could do that? Think about it. That's like running from Port Angeles to Sunny Farms in Sequim or from Port Angeles to Salt Creek! Shoot, it's further than running from Port Angeles to Victoria, BC - that is if you could run across water.

You have accomplished this by setting goals and then putting in the work to meet those goals. Hard work, but it's rewarding and fun to meet your goals. It makes a person feel good about themselves, doesn't it?

Keep up the great work. You are on your way to becoming a marathoner. If you run another 12 miles that will make a total of 25 miles. Wow! To finish your marathon, come down to **City Pier on June 4th** to run the final 1.2 miles on the waterfront trail. There will be lots of kids completing their marathon that day.

Are you exercising your brain too? Don't forget to read for 20 minutes every day. You can complete the Reading Log bingo for book tokens and a free book if you complete the entire chart.

We really hope to see you and your family at the Kids Marathon so that we can cheer for you as you run. Then we can celebrate this amazing accomplishment that YOU have achieved for YOU!

See you **June 4th** at 3:00 pm at the City Pier for the final run!
